STUDY TIP OF THE MONTH TIME MANAGEMENT

Sometimes when you are enrolled in a course you can become worried about your studies. For example:

- you may not be clear about what to do
- you may have fallen behind and do not know how to catch up
- you may be concerned about how to meet expectations – work, family, friends, your own expectations.

It is normal to think about study deadlines and must do's. It is also important to make time in your life to study, and to take advantage of the support that is there for you.

Here are three things you can do to help you manage your time and keep things moving along.

1. Identify your assessment dates and work towards them.
2. Visit Canvas every day and try to complete at least one task every day.

3. Plan time for your studies and stick to your study plan (even if it means missing out on Netflix).

C&K College is here to support YOU

As a student at C&K College you are not alone. Calling your Trainer, or calling Student Services on 07 3513 2524 is often enough to get you going. Logging into Canvas often to complete tasks, or to add to an assessment will help keep you on track, and if you move things along regularly you will feel less stress and more in control.
