First aid steps for children

| | |
|------------------------------------|---|
| Qualified first aider | <ul style="list-style-type: none"> Wash hands. Assess injury. Consider known medical needs (if applicable). Administer <i>first aid</i>. Wear disposable gloves if blood (or other bodily fluid) is visible. Once first aid has been administered: <ul style="list-style-type: none"> Wash hands When practical, complete <i>Child Centre Incident Record</i>. Continue to monitor child, and if needed, record additional information on the <i>Child, Centre Incident Record</i>. |
| Cuts and abrasions | <ul style="list-style-type: none"> Stop any bleeding by holding a clean cloth or bandage; and apply firm light pressure. Clean wound by rinsing it with clean water/sterile saline solution and picking out any dirt or debris with tweezers. Dry wound by patting the surrounding skin with a clean pad or towel. Cover wound (small wounds can be left uncovered) with a non-stick dressing; avoid tape on fragile skin. If wound is in an area that is difficult to dress (such as the scalp), concentrate on keeping the area clean and dry. |
| Ticks | <p>If a tick is identified on a child's body:</p> <ul style="list-style-type: none"> Do not attempt to remove or disturb the tick. Promptly notify child's parent/guardian by telephone. Instruct parent/guardian to collect their child and recommend they seek medical assistance to safely remove tick. Monitor child closely until parent/guardian arrives. Complete <i>Child, Centre Incident Record</i>. If child is displaying an adverse or significant reaction, immediately telephone emergency services – 000 and follow operator directions. When practical, complete regulatory notification as per <i>Child, Centre Incident Reporting Procedure (Branch/Affiliate)</i>. |
| Other teachers/ educator(s) | <ul style="list-style-type: none"> In the event of a medical emergency, immediately telephone 000 for an ambulance*. For example: a seizure, compound fracture, significant blood loss, unconsciousness for any length of time, child swallows an unidentified or hazardous item, difficulty breathing, child with anaphylaxis exposed to an allergen or displays signs of an allergic reaction etc. If required, provide first aider with first aid kit. Ensure effective supervision of all children. If required, move other children away from the injured child and comfort children who may be distressed. <p>* When educator to child ratios (as per Regulation 123 of the Education and Care Services National Regulations) can be maintained at the centre, an educator may accompany a child in an ambulance</p> |

Communication with injured child's parent/guardian

- When a child is injured, inform child's parent/guardian (or authorised person) as soon as practical OR upon child's collection on the day of the incident, but no later than 24 hours after the incident. Provide them with the completed *Child Centre Incident Record* and ask them to sign and date the record to acknowledge they have been informed of the incident. If requested, provide parent/guardian a copy of the incident record.

However, if the incident/injury:

- Involves the child's **head or face** inform parents/guardians by telephone immediately after an incident.
- Is **serious** and/or displays any **sign or symptom of concussion*** as listed on the following page, direct the parent/guardian to immediately collect their child and seek immediate medical attention.

Signs and symptoms of concussion

| Physical symptoms | Cognitive symptoms | Emotional/behaviour symptoms |
|---|--|--|
| <ul style="list-style-type: none"> headache nausea and/or vomiting blurred or double vision sensitivity to light or noise dizziness and balance problems drowsiness*, fatigue and sleep difficulties <p>*Call 13HEALTH for advice if the child is experiencing sleepiness after a head injury</p> | <ul style="list-style-type: none"> difficulty concentrating slower reaction times difficulty remembering things, or even forgetting things altogether feelings of being 'in a fog' or 'slow' | <ul style="list-style-type: none"> greater irritability than usual anxiety changes in mood like being sad or even depressed |

NQS2 Children's Health & Safety Procedure Administering first aid

<Centres are encouraged to print this page and display within all first aid kits>
