At C&K you are valued and welcomed as our partner in your child’s learning.

Our Centre offers a play-based educational program for children who turn 4 years by 30th June in the year they attend.

See the table below to check which year your child is eligible to start Kindergarten. Your child is eligible for Prep after the Kindergarten year.

Become a part of our Kindergarten Community and start something special.
At CCK we foster the unique capabilities of each child to create a lifelong love of learning that will support them as they make their transition to school.

Our Centre has been established since 1972. It is in a central location featuring an exceptional outdoor environment and nature play space.

Why Choose CCK over Childcare?
- Highly qualified, long-term, experienced staff
- Exceeding National Quality Standards
- Play based program
- The same group of children, aged 3-5 yrs attend the same day, same time throughout the year
- Parents believe C&K Kindergartens better prepare their children for school with similar routines
- The size of our facilities and learning places and spaces are set up specifically for Kindergarten aged children

At Cairns Community Kindergarten children have an opportunity to build relationships, develop skills and learn through play each and every day.

Studies show that children who participate in Kindergarten programs transition easily to school.

What does Kindergarten involve?
Universal access enables all children to attend Kindergarten for an average of 15 hours per week or 600 hours per year.

At Cairns Community Kindergarten, we have two models of delivery for families to choose from. Both programs ensure children receive the same number of hours of education across the school year.

Kookaburra Group
Monday, Tuesday & alternate Wednesday
8.30 am - 2.30 pm
max. 22 children (3 1/2 to 5 years old)

Sunbird Group
Thursday, Friday
8.00am - 3.45pm
max. 22 children (3 1/2 to 5 years old)

What will my child experience?
Kindergarten learning is guided by the C&K Curriculum known as Building Waterfalls and the Early Years Learning Framework.

Through our play-based program your child will:
* connect with the natural environment
* make friends and learn how to interact with other children
* explore and express their creativity
* build confidence and find their unique identity
* learn to be an effective communicator and an involved learner

An exceptional environment, where children are accepted and supported, encouraged to explore, question, create and push individual boundaries.

-Martina T., Parent
